

## Spreader Bar for Forklift

Forklift Spreader Bars - Proudly operating ever since the year 1974, ELME Spreader AB is the largest independent spreader maker in the globe. They have been a devoted producer of spreaders used for different applications like the handling of containers, swap bodies and trailers.

Engineering is done in-house by means of making use of all of the most up-to-date CAD systems and FEM tools. The ELME business currently has more than one hundred twenty five personnel. Their spreaders are supplied to reach quayside, ship-to-shore cranes, stackers, straddle carriers, lift trucks and gantry all-around the globe.

The ELME product range offers spreaders used for various trailer and container handling operations. A few of their inventory consist of: Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail Mounted and Rubber Tired Gantry Cranes plus a wide array of attachments.

ELME manufacturing and production is performed in a highly automated purpose built factory. In the year 2008, they made more than one thousand one hundred fifty spreaders by using top quality parts so as to guarantee dependability and top standards while offering competitive prices. Major features of ELME consist of design simplicity, market response and inventive modular spreader concept.
