

## **Forklift Electrical Parts**

Forklift Electrical Parts - Lift trucks may be particularly labeled to be utilized in unsafe places. A labeled forklift denotes the design has met the least requirements of ANSI/UL 558 used for engine powered lift trucks or ANSI/UL 583 utilized for electric forklifts for the type of label attached.

Applications for labeled lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance provider and Fire Marshall for additional information about the approved uses of industrial powered forklifts in your application.

If the specific lift truck meets the outlined standards, labels may be attached. A labeled lift truck will show the type of designation put on the nameplate and would have a properly corresponding label attached.
